

PRODUCT DEVELOPMENT

We provide services in every step of the product development chain: design, prototyping, process selection and final design documentation.

Services

We provide services in every step of the product development chain: design, prototyping, process selection and final design documentation.

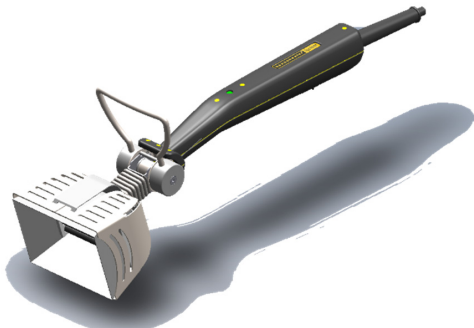

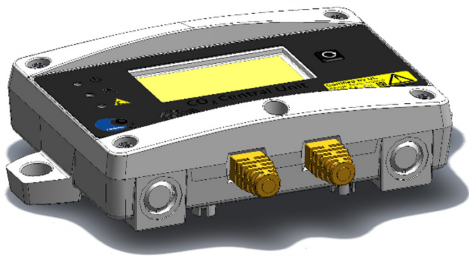

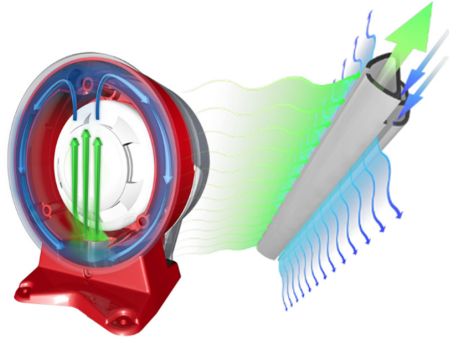

Given our expertise in a wide variety of manufacturing processes, we are able to assist you in areas such as manufacturing, tooling and production structure. Our designers – junior as well as senior – work with Inventor, SolidWorks and several other design programs. Many of our products have become patented.

- 1 Smoke detector for ventilation systems.
- 2 MKVI & MKVII - Rebreather
- 3 Im CO2 sensor for wall mounting.
- 4 Speedheater

Reference Projects

CALECTRO AB

Smoke detector for ventilation systems.

POSEIDON DIVING SYSTEMS AB

MKVI & MKVII - Rebreather

Project management, mechanical design, integration of electronics, purchasing and ordering of tools, testing equipment and production equipment.

LOGICO2 AB

CO₂ sensor for wall mounting. Project management, design, integration of electronics, purchasing of tools and production equipment.

SPEEDHEATER AB

Engineered from art designer sketches. Integration of electrical components, production of forming tools and prototypes, testing of mechanical properties.

Many of our products have become patented.
